Pyx Health®
Because no one gets better alone ™

Engage, activate, impact.

Improving the health of your DSNP members

Pyx Health is an engagement company focused on the most vulnerable, hard-to-reach populations. Our mission is to scale the power of human connection. Leveraging our deep bench of remote, trained, empathetic care coordinators paired with 24/7 user-centric mobile technology, we employ loneliness and other social health interventions to uncover and solve barriers to care.

The result? A proven solution that improves quality, outcomes and member experience, while reducing total cost of care.

PROGRAM SERVICES for DSNP population:

- Health coaching and condition support (pre-appointment planning, med adherence, lifestyle modification)
- Enhanced SDOH and health literacy support
- Access to care assistance
- Long-term care and aging support

RESULTS using unique, comprehensive, ongoing engagement for DSNP members

↓**65%**
DEPRESSION
