Engage, activate, impact.

IMPROVING MATERNAL HEALTH

Pyx Health is an engagement company focused on the most vulnerable, hard-to-reach populations. Our mission is to scale the power of human connection. Leveraging our deep bench of remote, trained, empathetic care coordinators paired with 24/7 user-centric mobile technology, we employ loneliness and other social health interventions to uncover and solve barriers to care.

The result? A proven solution that improves quality, outcomes and member experience, while reducing total cost of care.

MATERNAL HEALTH PROGRAM SERVICES:

- Assessments
- Find a provider
- Appointment scheduling
- Pre-appointment coaching
- Arrange rides, childcare
- Diet and lifestyle mentoring

RESULTS using intensive care coordination to improve maternal health while reducing cost

55%
reduction in depression/anxiety
